Good news for Chamber members! ©ACCE/SBN

A national study by The Schapiro Group, an Atlanta based market research firm, reveal how consumers and business owners perceive the local Chamber of Commerce and the businesses that are their members:

- Consumers who are told that a business is a Chamber member are 51% more likely to be highly aware of the business and 57% more likely to think positively of its local reputation.
- When consumers know that a business is a member of the local Chamber, they are 63% more likely to buy future purchases from them.
- 82% of respondents believe that the local Chamber of Commerce helps create jobs and promotes local economic development.

The results of the Schapiro study are clear: Positive perception increases among consumers and business owners when a business is identified as a member of the local Chamber of Commerce.
